

Resolution

Today Korean people are carrying on the all-people struggle to realize their independent ideal and aspiration, true to the line of building a powerful socialist nation and the policy of national reunification set forth by His Excellency **Kim Jong Un** at the Seventh Congress of the WPK.

The vigorous struggle of Korean people, who are working world-startling miracles in all fields in the spirit of self-reliance and self-development, braving through the imperialists' vicious sanctions against DPRK, gives a great encouragement to the world progressive peoples in their struggle to achieve independence.

In particular, DPRK's possession of nuclear deterrence and ICBMs has put an end to the nuclear war threat and blackmail of the US and reliably safeguarded peace and security in and around the Korean Peninsula. This is, indeed, a historic undertaking that has challenged the old international order rampant with high-handedness and arbitrariness of imperialism.

However, in an attempt to hide its true nature as the chief culprit of aggravating the situation on the Korean Peninsula, the US is clamoring that DPRK's self-defensive measures to increase its defense capabilities and peaceful space development are "threats" to the international community, and they are hurling its huge nuclear strategic assets into the Korean Peninsula and its surroundings, thereby revealing its undisguised plan of military attack, and are trying every means to bring Korean people to submission, in collusion with its alliance.

The south Korean authorities, too, instead of learning a serious lesson from the collapse of the conservative forces who had plunged the inter-Korean relations to the worst state, continue to persist on cooperation with the outside forces without abandoning the conception of confrontation with the fellow countrymen, and go against the unanimous desire of the Korean people and peace-loving peoples of the world for peace and security of the Korean Peninsula and the improvement of inter-Korean relations.

The current ever-worsening situation requires that we intensify the international movement to oppose imperialists' dominationist policy toward the Korean Peninsula and support its reunification and peace.

Fully supporting the appeal to the world progressive people adopted at the joint conference of social organizations of DPRK on the occasion of 45th anniversary of the historic July 4th Joint Statement; and in order to conduct more dynamic activities of solidarity with the Korean people;

We, representatives of friendship and solidarity groups of different countries and international democratic anti-imperialist organizations present at the Meeting of Solidarity with the Korean People, adopt the following resolution:

First, we will unfold more vigorous solidarity movement to support the Korean people's struggle to achieve national reunification in the spirit of Three Charters for National Reunification and the North-south Joint Declaration, the great programs for national reunification.

Second, we will give wide publicity to the validity of DPRK's inalienable right to safeguard peace and security of the country and nation by increasing its self-defense capability by all means available, it is noted that the Korean people have decided to base their defence on Songun policy.

Third, we will increase the international pressure on the US to strongly urge it to give up its anti-DPRK hostile policy and pull out US troops and its nuclear assets from south Korea.

Fourth, we will organize a wide range of strong activities for the ease of tension on the Korean Peninsula and against the aggressive war drills and arms buildup of the US and its vassal forces.

Fifth, we will unfold the international protest movement against maneuvers of the south Korean anti-reunification forces who hampers the national unity in collusion with the outside forces.

Sixth, we will resolutely carry on the international campaign to turn the public opinion against the wicked plots and maneuvers of the US to realize its wild political ambition, making a persistent fuss about nuclear, missile and "human rights" issues.

Seventh, we will organize world-wide activities to expose the injustice of anti-DPRK "sanction resolutions" adopted by the US and its vassal forces by usurping the name of UN and realize the true international justice.

Eighth, we will radically expand the forces of the movement to support peace and reunification of the Korean Peninsula by developing in-depth solidarity and cooperation with all the peace-loving and progressive forces.

Our struggle to support the righteous cause of Korean people is widely accepted and recognized by the world progressives aspiring after a peaceful and independent new world.

We will fight on vigorously with firm conviction that, under the wise leadership of the respected Supreme Leader **Kim Jong Un**, Korean people will surely accomplish the cause of building a powerful socialist nation and reunify the country in near future.

We firmly believe that all peace- and justice-loving conscience of the world will actively join our struggle.

Participants in the Meeting of Solidarity with the Korean People
